SUMMARY

Results-oriented Full Stack Dot Net Developer with over 8 years of experience specializing in Angular and Azure with proven track record in delivering innovative solutions across diverse domains including Supply Chain, Oil & Gas, and Healthcare.

SKILLS

C# .Net Core

Web Api SQL

Angular 8 JavaScript

MVC LINQ .Net 6

Type Script

Entity Framework

Azure Service Bus APIM

Azure table Storage

Azure Functions

Terraform

AWARDS

Annu Priya
Senior Software Engineer

To seek a stimulating and dynamic career that allows me to apply and enhance my existing skills. I am eager to utilize my analytical and technical expertise to support the organization in reaching its goals and fostering its growth.

💼 WORK EXPERIENCE AND PROJECTS

Senior Software Engineer
Epam Systems

10/2021 - Present
Project : Fuel Pricing System - Client Shell
Achievements/Tasks

- Developed multiple modules, including margin, notification, master data, and Marken partner, utilizing various PAAS services such as Durable function, Azure Batch Service, Azure Table Store, APIM, and Azure Service Bus.
- Resolved UAT issues related to functionality and performance to ensure a smooth go-live.
- Created Terraform scripts for Azure APIM and facilitated their implementation across various modules.
- Developed an in-house wrapper NuGet package for service bus and Azure table storage, improving reusability across microservices.
- Ensured Test-Driven Development with Xunit, covered Sonar issues, maintained high code quality, and achieved high code coverage in all modules.
- Revamped existing solutions with better design, durable functions, and Azure batch services, resulting in improved performance and availability.
- Collaborated with third-party services like SeriLog, NLog, and MailJet to improve logging and monitored live apps with custom alerts and app insights.
- Contributed in technical interviews for .NET practice for onboarding talented peers.

Senior Software Engineer
GEP

02/2020 - 10/2021
Projects : Cost Model, Order Collaboration
Achievements/Tasks

- Revamped the existing solution to in house plugin architecture.
- Developed screens with a modular architecture using Angular 8 for front-end implementation of micro UI architecture.
- Created multiple plugins as part of core components for plugin architecture.
- Worked in implementing dynamic architecture, to suffice needs of multiple clients by leveraging new in-house architecture for front end and using process orchestrator in camunda.
- Implemented CQRS Architecture and utilized different databases such as SQL Server, MongoDB, and Elastic Search for different scenarios.
- Worked on performance improvements of SQL.
- Mentored junior and new team members, providing functional and technical guidance to improve their efficiency.

WORK EXPERIENCE AND PROJECTS

Consultant
Deloitte Consulting

06/2017 - 02/2020
Project : State Of Oregon IE , QRM Portal, Immigration Portal
Achievements/Tasks

- Developed web pages end to end individually as part of a Asp.Net MVC web application along with Entity Framework and SQL.
- Was involved with various integration of Portal with CA IDM, interfaces and correspondence.
- Stabilized the application by fixing complex bugs using Visual Studio and browser debugging tools
- Developed multiple extensions and framework solutions for automation.
- Worked with SonarQube for improving the quality of code of solution.

Project Engineer
Wipro Limited

06/2015 - 01/2017
Projects : Quoting Apps, ISRM
Achievements/Tasks

- Developed automated selenium test cases with C# for regression and BVT.
- Worked on web application with Angular, Web Api and SQL.
- Worked on developing Internet banking project with ASP.Net Web Forms and Ado.Net.

CERTIFICATES

AZ-900 Microsoft Certified: Azure Fundamentals (09/2021)

AZ-204 Microsoft Certified: Azure Developer Associate (11/2022 - 11/2023)

EDUCATION

B.Tech (ECE) - 8.73 (CGPA)
Bhagalpur College Of Engineering

07/2011 - 06/2015   *Electronics and Communication Engineering*

AISSCE - 94.2%
Delhi Public School, Bokaro
